# Mobilgas and Mobiloil

## and a complete line of the world-famous Socony-Vacuum Products

The Red Eagle Oil Company is happy to announce to its friends, *the world's finest petroleum products*. Today, the signs shown above go up at all of our stations. That's the signal that Mobilgas, Mobiloil and other quality brands of the great Socony-Vacuum Corporation are on sale!

We have made this important change because it is our policy to offer our customers only the best gasoline and motor oils that money can buy. The Socony-Vacuum Corporation, with its far-flung oil fields, its huge refineries, and its vast resources for research and experiment, makes petroleum products that lead the world in quality.

We invite you to stop at any of our stations tomorrow, and try Mobilgas and Mobiloil. They are the "quality mates" of the petroleum industry. They work together to make your car run better. We recommend them, without any reservations whatever, as the best values you can buy!

### Socony-Vacuum Specialties and Industrial Lubricants

Among the Socony-Vacuum products is a complete line of specialties, including Socony Universal, Socony Auto Wax, Auto Polish, Anti-Freeze, Radiator Cleaner, Radiator Flush, Top Dressing, and Socony Polishing Cloth. On sale at all of our stations and dealers.

Operators and industrial engineers are invited to investigate cost-cutting records made with Gargoyle Lubricants and Socony-Vacuum engineering service in leading plants in your industry. We'll gladly have a representative show you such records, without obligation on your part.
